

# DIY Prefabricated Staircase System

These staircases are usually packaged pre-fitted ready for delivery inter-state or regional WA. To pre-make these staircases, it is very simple and all that is needed is a basic sketch and the dimensions. In some instances, we can arrange for the dimensions to be measured by our skilled tradespeople to ensure a high quality and accurate product is manufactured.

## The Process Of Manufacturing Our Prefabricated Stairs

Beams come in options:  
RHS 200mm x 100mm x 6m or 200mm x 150mm x 6m
